

“Duke and I are absolutely thrilled to have been chosen to be one as one of the Spillers Horse Feeds Brand Ambassadors for 2022.

With Duke turning 15 this year, I was on the look out for a balancer with added joint support, as although he doesn't act it, he's officially a veteran this year!

I came across the Spillers Supple and Senior balancer which covered everything I was looking for and soon noticed a real difference in his overall performance.

When I saw that Spillers were running a Brand Ambassador program I decided to enter myself and Duke.

Side saddle wasn't an option on the list of disciplines, so I added it into our information section instead, explained a little bit about what Duke and I do together and how we would love to help promote Side Saddle through the Spillers brand.

We were honored to have made it into the short-list of 20 riders, and it was overwhelming to see the support from everyone who voted for us, allowing us to become one of the Spillers team.

We're looking forward to being supported by Spillers through the 2022 season and promoting the art of Side Saddle as we continue on our journey together.”
